PRODUCT DATA SHEET

Connect 3.0 Plus Acoustic Pod

CODE: CONNECT3

Create a private, comfortable and productive space within the modern workplace with the Connect 3.0 Plus Acoustic Pod. Designed to accommodate two to four people, this stylish acoustic pod provides an ideal environment for meetings, discussions, collaborative working and focused conversations, helping to reduce the distractions of a busy office. The Connect 3.0 Plus features comfortable sofas with supportive backrests, allowing users to hold meetings in a relaxed and welcoming environment. Its impressive TUV-certified acoustic rating of 28.9dB/NIC helps create a quieter space for conversations and focused work. For improved workplace comfort, the pod incorporates an air-purifying system with a HEPA filter, while integrated ventilation and LED lighting are automatically activated by the motion sensor. The pod also includes CE-certified charging facilities, featuring an AC outlet alongside Type A and Type C USB ports, making it easy to keep devices powered during meetings.
