PRODUCT DATA SHEET

Heavy Duty Nesting Exam Desk

CODE: EXS1-M

Designed for strength, stability, and efficient storage, the Heavy Duty Nesting Exam Desk is an ideal solution for schools, colleges, universities, and examination venues. Its robust round steel frame construction and braced tubular design provide exceptional durability, ensuring reliable performance in demanding environments. The clever nesting design allows tables to be stacked up to five high when not in use, helping maximise valuable storage space and making setup and clear-down quick and efficient.

An 18mm laminated MDF tabletop comes as standard, offering a hard-wearing and easy-to-clean work surface suitable for everyday use. To complement your existing furniture or branding requirements, the tabletop surface, board edging, and steel frame are all available in a choice of colours. Combining practicality, durability, and space-saving convenience, this heavy-duty exam table is built to withstand years of regular use.

FEATURES & SPECIFICATIONS
