PRODUCT DATA SHEET

Domino Acoustic Desktop Screen

CODE: DDS1600

Domino Acoustic Screens from the Shush Acoustic range are designed to help reduce noise and support a more focused working environment. Manufactured from PET, a recycled and sustainable material, these high-performance panels deliver excellent sound absorption, helping to minimise background noise across the workplace. Available in 14 contemporary colours, Domino Acoustic Screens combine practical acoustic control with a clean, modern look.

Suitable for offices, educational settings, and collaborative areas, these lightweight yet durable screens are simple to install and built to last. Proudly made in the UK, they provide an effective and eco-conscious solution for managing sound while enhancing the overall workspace.

Please note: each screen is supplied with two single desk screen clamp brackets (AHSB-FX). Please advise if to be fitted to back-to-back bench desks.

FEATURES & SPECIFICATIONS

- Eco-friendly PET construction made from recycled materials
- Excellent acoustic performance to reduce workplace noise
- Ideal for offices, meeting rooms, education, and collaboration zones
- Lightweight, durable, and easy to install
- Made in the UK
