PRODUCT DATA SHEET

Standard Steel Locker

CODE: ULK1

Our steel lockers offer a secure storage solution for your welfare areas, workplaces, schools and factories. Each locker is made from high-quality stainless steel and comes equipped with a camlock and two master-series keys for added security. Designed for versatility, our lockers are ideal for various settings and feature semi-concealed hinges for a sleek appearance, a built-in identification holder for easy organisation, and come with two keys as standard.

FEATURES & SPECIFICATIONS

- Door fitted with ventilation holes
- Semi concealed hinges
- Made from quality stainless steel
- 2 keys as standard
- Identification holder
