PRODUCT DATA SHEET

Retreat Acoustic Booth

CODE: RBX

The Retreat Box provides a private, comfortable space for focused conversations and quiet working in busy, open-plan environments. Designed as a single or double-person acoustic pod, it creates a calm retreat from surrounding distractions and noise, making it ideal for taking or making phone calls, virtual meetings and private conversations. Featuring 60mm thick acoustic walls, combining MFC, foam and acoustic felt, the Retreat Box delivers excellent sound absorption while creating a high-quality, contemporary workspace. A built-in LED light provides a comfortable working environment, while the poseur-height table offers a convenient surface for laptops, notes or devices. For added convenience, the pod includes a 230V UK power socket with USB-A and USB-C charging ports, while a quiet integrated fan maintains airflow without disrupting concentration. Fitted with castors, the Retreat Box can also be easily moved and repositioned as your workspace evolves.
