PRODUCT DATA SHEET

Steel Recycling Cupboard

CODE: ACR40

Our Steel Recycling Cupboard is designed to help you create a convenient and hygienic solution to all your office recycling needs. Keep your work area tidy and reach your waste management goals with the help of its three colour coordinated compartments and take advantage of the lower storage space to store cleaning supplies and equipment. Create a fully functional and easy to use recycling system in the workplace or home and collect all your wastepaper, plastic, glass, cans, and general waste. Whether you're recycling in a small office or large work area our steel recycling cupboard provides a reliable and convenient way to keep everything in order.
