PRODUCT DATA SHEET

Ergonomic High Back Operator Chair with Adjustable Arms

CODE: ERGO+IMPZA1

The ERGO High Back Operator Chair is designed with user comfort and practicality in mind, making it an excellent choice for a busy office environment. Featuring a twin-lever mechanism on castors, this chair allows easy adjustment for both seat height and back tilt, ensuring personalised ergonomic support throughout the day. The IMPZA1 height-adjustable arms provide additional comfort and flexibility, helping to reduce strain on the shoulders and arms during extended use. With a high backrest for full spinal support, a generously sized seat, and a stable five-star base, the ERGO chair delivers both comfort and durability. Lightweight at just 13kg, it's easy to reposition while maintaining robust everyday performance.

Upgrade your workspace with the ERGO High Back Operator Chair – built for comfort, designed for productivity.
