PRODUCT DATA SHEET

Pro Flip Rectangular Table

CODE: PROFL16

Designed for flexibility, practicality and easy storage, the Pro Flip Tables are a versatile solution for modern offices, meeting rooms, training spaces and conference environments. Featuring durable 25mm MFC rectangular tops and a convenient flip-top mechanism, the tables can be quickly folded and nested together when not in use, helping to maximise available space. These tables can be paired with a choice of powder-coated frames to complement a wide range of interiors. The modular design allows multiple table configurations using 1200mm, 1400mm and 1600mm lengths. Fitted with lockable front castors, the Pro Flip Tables are easy to move and position while providing stability when in use. Their combination of practical design, easy storage and flexible configuration makes them an ideal choice for spaces that need to adapt quickly to different requirements.

FEATURES & SPECIFICATIONS

- 25mm MFC rectangular tops
- Easy to use flip top mechanism and nesting ability
- Optional table top connecting with TV locking bracket
- Lockable front castors
