PRODUCT DATA SHEET

Solo 3.0 Plus Acoustic Pod

CODE: SOLO3

Create a private, comfortable and productive workspace with the Solo 3.0 Plus Acoustic Pod – a stylish single-person acoustic pod designed for focused work, confidential conversations, phone calls and video conferences. Offering a high acoustic rating of 28.9dB, TUV/NIC certified, the Solo 3.0 Plus helps reduce surrounding office noise and provides a quieter environment where concentration and privacy matter most. The pod is also equipped with an air purification system and HEPA filter, helping to maintain a cleaner and fresher interior throughout the working day. Inside, motion-activated LED lighting and ventilation automatically switch on when the pod is occupied, providing a convenient and comfortable working environment without unnecessary energy use. The pod also features CE-certified charging ports, including an AC outlet and Type A & Type C USB ports, making it easy to keep laptops, phones and other devices powered while working.
